I am Joshua Eberhart, a US Marine combat veteran and a student in the final semester of Tidewater Community Colleges A.A.S in Graphic Design. It is my goal to become a web developer with skills in HTML, CSS, Javascript and associated frameworks. Through my advanced problem solving and customer service skills, I strive to design modern, concise and professional websites that benefit both the client and the customer.

WORK EXPERIENCE

Intelligence Specialist

U.S. Marine Corps - Quantico, VA
March 2009 to March 2018

As an Intelligence Specialist, I supplied timely, accurate and relevant information to support important decision making processes. This was accomplished through the use of effective written, graphic and computer skills used to publish easily understandable forms of complex analysis.
My position also included the development of infographics for support to information articles as well as stand alone representations of data for use in decision making.

Additionally, I spent time as a manager in charge of a section of coworkers and was charged with maintaining their accountability, work output and other daily managerial tasks asked of me.

During my service I received recognition by the Director of National Intelligence for an intelligence product in 2017. I received awards for good conduct, outstanding volunteer service, combat deployments and national defense.

Firefighter

Spotsylvania Volunteer Fire Department - Spotsylvania County, VA
December 2015 to July 2017

As a volunteer firefighter, I served the community through timely and professional response to fire, vehicular and medical emergencies. This position afforded the opportunity to assist many of those in their most confusing and fearful times.

In addition I was able to assist in bringing awareness and training to local youths on what to do in the event of and emergency. This helped develop critical communication and customer service skills and was an opportunity to help ensure a safe community now and in the future.

EDUCATION

Associate in Graphic Design and Multimedia
Tidewater Community College - Virginia Beach, VA
January 2018 to Present (Graduating Fall 2020)
